

# Balance

Year 2 of "Our Environment, My Culture"

2020 - 2021 ArtLink Theme

*San José's Pier, Angel, Guatemala*

**To balance means to bring into harmony. To find stability.**

In your art piece consider the importance of the natural world to your culture, your daily life and to your community. As opposed to the time you might be spending in other activities and/or digitally engaged online and on mobile phones.

**What balance do you strike? How do you balance both?**

We also invite you to go deeper to share your concerns about your natural environment, and our shared planet.

**What do you observe?**

Illustrate your observations including any ideas for solutions that might help restore the balance of nature.

*Harvesting Coffee, Karlyn, Guatemala*

*"Our world is  
our home, and  
every human in  
it, is our family."*

**- Abhijit Naskar**
