## Halloween Word Games

There are many characters associated with Halloween from literature. There are witches, wizards, monsters, ghosts, goblins, mummies and more. Here is the history of some of those most famous characters.

The legend of witches and wizards is thousands of years old. When people began to discover medicine and heal members of the community this seemed like magic. Those healers were considered witches and wizards. As time went on people began to fear them because their abilities seemed too powerful. There have been many times in history when people would punish those that were deemed to be witches and wizards. However, they are now a source of curiosity and have been a major part of many stories such as Roald Dahl's Witches, Harry Potter, Sabrina the Teenage Witch and more. Witches were associated with the harvest celebration, which solidifies their connection to Halloween.

Dr. Frankenstein's Monster is another notorious character that has inspired many monster characters since its creation in 1823. The author of the story, Mary Shelley, created this character due to some questionable science experiments happening at the time. The Doctor brought a monster to life using science and the monster actually didn't want to be scary, but he was ultimately very frightening.

Ghosts are so symbolic of scary stories that we even call them "Ghost Stories." Ghosts have fascinated people since ancient times and the idea of being able to talk to someone that has passed is a source of great joy and fear. Ghosts have been featured in much literature including The Christmas Carol, Legend of Sleepy Hallow and more.

Gather the family around for a fun Halloween game! There are so many words and characters related to Halloween. Make learning about different literary characters and discovering new vocabulary words fun for the whole family. It is easy to create your own games and here are a few to get started!

Stepping Stones at Twenty

## Halloween Word Games

## Word Scramble
