

## Spotlight On: What We Do After School In Our Free Time

*For students ages 9-13 years old*

### Introduction

Take a look at this video of a free afternoon after school for RainForest ArtLink students in Macanché, Guatemala, located in the Mayan Biosphere Reserve Buffer Zone. Then test your knowledge by answering questions about the video.

# Your Assignment

## Answer these questions

1. How do the students carry their books home from school?
2. What are some of the things Alexa's grandmother sells in her convenience store?
3. What does Felipe and his friends like to do after school?
4. What are the two main reasons Walter likes the lake?
5. Locate Macanché, Guatemala on the internet. What is the name of the lake the children are swimming in?

6. What questions would you like to ask the children in the video?

7. This video was shot in around February 1st. From the video, what is the climate like?  
Is this different from the climate in your community? Why?

8. Macanché is officially in the Mayan Biosphere Buffer Zone? What is an environmental  
buffer zone? Why are buffer zones important?

9. What do you like to do after school?
